

Mašina za horizontalno obeležavanje H18-1

Horizontal marking machine H18-1

72.500€

- H18-1 sa deljenom šasijom
- Posедуje module za hladnu boji (airspray) i 2K hladnu plastiku (spotflex + anglomerat)
- Upravljačka jedinica: Malcon 4
- Godina proizvodnje 2014,
- Serijski broj: 192/0104
- Ukupno 1200 radnih sati

- *H18-1 with split chassis*
- *Has modules for cold paint (airspray) and 2K cold plastic (spotflex + anglomerate)*
- *Control unit: Malcon 4*
- *Year of production 2014,*
- *Serial No: 192/0104*
- *A total of 1200 working hours*

Opis proizvođača

Manufacturer's description:

Kompaktna, uska i okretna univerzalna mašina srednje veličine

- hidraulični pogon, beskonačno promenljiv koji istovremeno deluje kao radna kočnica. Uklj. motor točka.

Opseg brzine od 0 - 18 km/h.

- izvodi snage za do 3 hidraulične pumpe, za nekoliko pogona kao što su pumpe za doziranje materijala, mešalice itd.

- motor: 4-cilindrični 2400 cm³, Kubota turbo dizel motor sa vodenim hlađenjem, niske emisije (EU faza IIIA odn. TIER 4 Interim)

- snaga: 44,0 kW pri 2700 o/min

- rezervoar za gorivo sa manometrom: 54 l u bezbednosnoj zoni ispred zadnje osovine

- rezervoar za hidraulično ulje: 75 l

- generator: 40A
- prekidač za isključivanje baterije
- E-sistem uklj. Trepćuća lampica za upozorenje u skladu sa StVZO (Nemački propisi o vozačkim dozvolama)
- elektrohidraulična višeslojna parkirna kočnica
- električni prekidač pedale
- nosač motora i kompresora sa apsorpcijom vibracija
- kabina potpuno podesiva
- 2 vozačka sedišta sa amortizerima, uključujući naslone za ruke

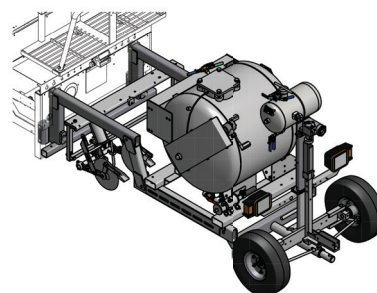

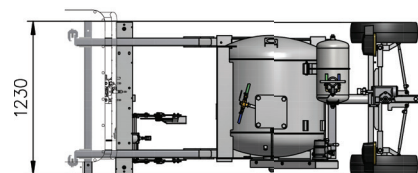

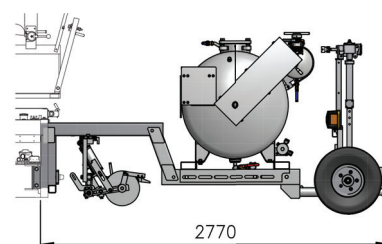

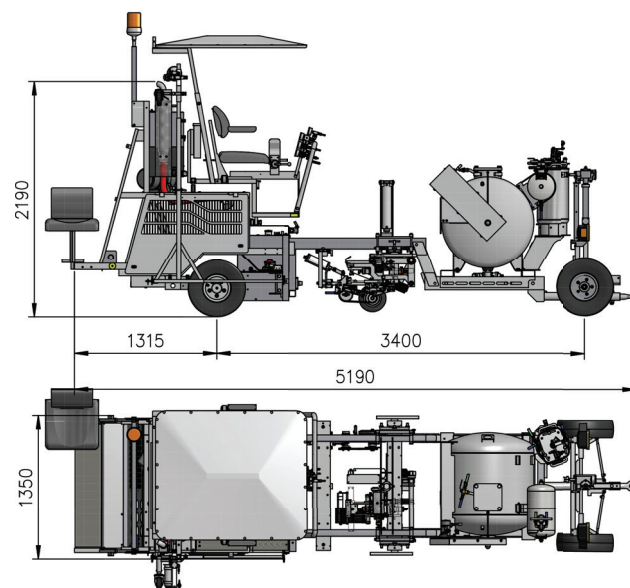

Vidimo se na putu.

- volan se može montirati levo i desno
- rezervoar za staklene perle pod pritiskom: 130 l (bruto) uklj. zaporne ventile levo i desno
- kontrolna tabla za jedinicu za vazdušni pritisak pod pritiskom na mestu operatera
- kutija za alat sa setom alata
- mašina i rezervoar sa TÜV (nemačka agencija za tehnički pregled) odobrenjem
- CE (Deklaracija o usaglašenosti)

Compact, narrow and manoevrable universal machine with medium-sized capacities
- hydraulic drive, infinitely variable which acts simultaneously as service brake. Incl. wheel motor.

Speed range from 0 - 18 km/h.

- power-take-offs for up to 3 hydraulic pumps, for several drives like material metering pumps, agitators, etc.
- motor: 4-cylinder 2400 cm³, Kubota Turbo diesel motor water-cooled, low-emission (EU Stage IIIA resp. TIER 4 Interim)
- power: 44,0 kW at 2700 rpm
- fuel tank with gauge: 54 l in safety zone in front of rear axle
- hydraulic oil tank: 75 l
- generator: 40A
- battery disconnecting switch
- E-system incl. flashing alarm lamp according StVZO (German Road Traffic Licensing Regulations)
- electric-hydraulic multiple disk parking brake
- electrical pedal switch
- motor- and compressor bracket vibration-absorbing
- cockpit completely adjustable
- 2 shock-mounted driver seats incl. armrests
- steering wheel mountable left and right side
- pressurised glass bead container: 130 l (gross) incl. stop valves left and right
- control panel for pressurised air unit at operator's stand
- tool box with set of tools
- machine and container with TÜV (german technical inspection agency) approval
- CE (Declaration of conformity)

Vidimo se na putu.

Konfiguracija

HYDRAULIC BASIC	1 kom
HYDRAULIC EQUIPMENT UNIVERSAL PUMP	1 kom
FRONT FRAME, LONG	1 kom
SHIFTING GUN SUPPORT	1 kom
BASIC FRONT AXLE H18	1 kom
MOUNTING KIT FRONT FRAME	1 kom
LAMP CARRIER	1 kom
MECHANICAL STEERING GEAR	1 kom
MECHANICAL POINTER - for H18, H26 and H33	1 kom
COMPRESSOR 1620 L/MIN 3-cylinder compressor, driven mechanically - effective output: 1620 l/min. at 7,5 bar	1 kom
PISTON COMPRESSOR OIL VG 100	2,000 L
GENERATOR 90A	1 kom
MEMBRAN DRYER 25 L/MIN. - for H18, H25, H26 ,H33, truck - compressed air for control systems and glass bead container will be dried to reduce faults caused by water condensate.	1 kom
ASSEMBLY KIT - BASIC MACHINE PREPARATION FOR EXCHANGE AGGREGATE Machine will be equipped with quick release fastener for hydraulic oil supply, etc. and the material container with modified adapter for quick exchange for other aggregates.	1 kom
ASSEMBLY KIT - APPLICATION UNIT	1 kom
PAINT AGGREGATE 460 L + 35 L	1 kom
TILTABLE SLIDING CARRIER DEVICE H18-1	1 kom
HARDENER PUMP WITH GROUND AGITATION	1 kom
MIXER AGGREGATE 98:2 With hydraulically driven dynamic mixer. Provides intensive mixing at extremely low mixing volume of only 0.4 lts and dynamic flushing. Small mixing volume and dynamic flushing allow fast cleaning with only a small consumption of solvent. Reversible mixer rotation to improve flushing of the extruder shutters.	1 kom
SHIFTABLE LIFTING-DEVICE	1 kom
HYDR.EQUIPMENT FOR 2-COMPONENT MIXER	1 kom

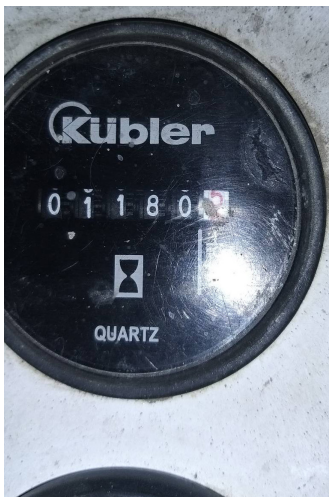

SPOTFLEXMARKING EQUIPMENT Equipment for SPOTFLEX for single lines of 15cm and 20cm	
SPOTFLEX BASIC EQUIPMENT 10	1 kom
SUPPORT WHEEL	1 kom
SERVICE-PACK SPOTFLEX	1 kom
SUPPORT ELEMENT	1 kom
INTERMEDIATE PLATE 0,4 MM	1 kom
TENSION ROD	1 kom
SINGLE NOZZLE ELEMENT	1 kom
INTERMEDIATE PLATE 5 MM	1 kom
BEADGUN EQUIPMENT Equipment for retro-reflective glass-bead dispensing - 1x glass-bead gun with double difusor for single lines	1 kom
BEAD GUN HOLDER	1 kom
DOUBLE BEAD DISTRIBUTOR	1 kom
GLASS BEAD GUN + ASSEMBLY KIT - bead quantity adjustable up to 9 kg/min. - incl. Hose socket DA=32+40 45° connection part between hose and bead gun	1 kom
SPACING DEVICE Automatic Line-Gap-Control System - MALCON 4 -	
IMPULSE TRANSMITTER + HOLDER	1 kom
MALCON4 multi-purpose device for manual, semi-automatic and fully automatic execution of line-space cycle - brilliant TFT (thin film transistor) colour display with a resolution of 800 x 480 pixels - two joysticks for easy change of programme during marking operation - simple user-optimized interface for operation - language selection (many languages are pre-installed) - 24 line-space programmes as well as special programmes (e.g. advance warning line ranges) - possibility to execute country-specific marking modes up to three parallel applied lines fully automatic. - control of up to four consecutive marking units (e.g. primer, spray and bead gun) - parallel running programmes are possible (e.g. profiles on basic line) - length correction of line respectively gap - shortcut keys for special programmes - documentation of all executed marking jobs - simulation mode - USB port for storage medium - connection for printer or PDA	1 kom

MOUNTING SET ELECTRONICS	1 kom
MAGNETIC VALVE 12V CPL. - for connection of one paint- or bead gun	1 kom
EMERGENCY SWITCH BOX - necessary in case of breakdown of electronic device in order to mark manually	1 kom
TOWING EYE	1 kom
AUDIBLE ALARM WHEN DRIVING BACKWARDS	1 kom
PAINTING RAL 9010 PURE WHITE	1 kom
SUNSHADE FOR H18	1 kom
REAR SEAT H18	1 kom
REAR-VIEW MIRROR, LEFT AND RIGHT SIDE	1 kom
HYDRAULIC FOR SPOTFLEX SCATTERING DRUM	1 kom
PROTECTION COVER FOR MALCON	1 kom
PRE MARKING UNIT	1 kom
SPRAYCAN SOPPEC WHITE	10 kom
APPLICATION UNIT for the application of: COLD PAINT	1 kom
FRONT FRAME H18-1	1 kom
SHIFTING GUN SUPPORT	1 kom
BASIC FRONT AXLE H18	1 kom
MOUNTING KIT FRONT FRAME	1 kom
STEERING GEAR, MECH. SHORT	1 kom
COLD PAINT UNIT 460 L suitable for mounting of metering pumps. - container designed as pressurised container - volume of paint container: 460 l (gross) - hydraulically driven agitator - paint filter - flushing system with galvanized 20 l container	1 kom
PAINT DISTRIBUTOR	1 kom
ROLLING DISC MARKER, 10-30 CM - for line widths 10-30 cm - mounting: left ☐ right ☐ center ☐	2 kom
ROUND HOLE NOZZLE 3,0 MM - for Vialine spraygun	1 kom
BASIC AIR NOZZLE 6,5 MM	1 kom
DRIP TRAY 39/30CM - for line widths up to 30 cm	1 kom

DRIP TRAY 50/37CM - for rolling discs with maximum distance of 37 cm	1 kom
VIALINE ATOMIZING AIR PAINT GUN atomising air paint spraygun - automatic switch-off of atomising air during line gaps - parts having contact with paint are made of stainless steel - with holder and limitation set	1 kom
ROUND HOLE NOZZLE 6,0 MM - for Vialine spraygun	1 kom
BASIC AIR NOZZLE 9 MM	1 kom
PRE NOZZLE 10-15 CM/2,5 HARD METAL	1 kom
PRE NOZZLE 18-30 CM/2,5 HARD METAL	1 kom
ASSEMBLY KIT FOR 1 SPRAY GUN - 1 set of paint and air hoses	1 kom
BEAD GUN HOLDER	1 kom
HANDSPRAY GUN, MOD. 210, L500 - with automatic atomising air interruption and nozzle set	1 kom
SET OF HOSES 10 M paint and air hose complete with connections - Length: 10 m	1 kom
